Custom Refractive Package Description*

IOL Master 500 -Biometry Laser Measurement- Ten times more accurate than a basic A-Scan Ultrasound

OPD III - Corneal Topography/ Wavefront Analysis- Aids in incision planning and implant selection

ORA- The ORA™ system continuously monitors the measurements of your eye during refractive lens surgery. This incredibly accurate, real-time display of the eye provides Dr. Conlon with an unprecedented level of valuable information about the eye, which allows him to customize your procedure to give you the best visual outcome.

Satisfaction Guarantee

Your Refractive Lens Procedure is backed by the Conlon Continued Care Commitment. Our goal is 100% patient satisfaction. There is no charge for refractive enhancements within the first year, if deemed necessary.

Fees for elective/uninsured products and services may be paid in full on the date of surgery. Cash, Certified Cheque, VISA, MasterCard, American Express, and Interac Debits are accepted.

A receipt will be issued for these uninsured products and services to be used for income tax purposes if applicable.
